2.2 - 45 kW / 04 - 60 HP

## A Tradition of Reliability

ELGi, established in 1960, designs and manufactures a wide range of air compressors. The company has gained its reputation for design and manufacture of screw compressors through strategic partnerships and continuous research and development. Over the years, it has emerged as a multi-product, multi-market enterprise providing total compressed air solutions in all segments. ELGi's design capabilities translated into a wide range of products ranging from oil-lubricated and oil-free rotary screw compressors, reciprocating compressors and centrifugal compressors. ELGi has its own manufacturing operations in India, Italy and USA with subsidiaries in Australia, Brazil, UAE and Indonesia. The company is fast expanding its global footprint attracting distributors and customers with its latest generation products.

## Robust Infrastructure

ELGi has modern manufacturing facilities equipped with advanced high precision grinding machines, turning centres and CNC horizontal and vertical machining centres. Screw airends are manufactured with the latest rotor grinding technology, coupled with measurement technology to maintain precise manufacturing tolerances. ELGi's manufacturing plants are both ISO and EOHs certified. The products are manufactured under controlled environment to ensure that its quality continues to meet the highest standards.

## Innovative Technology

Screw Compressor elements are manufactured in-house using state-of-the-art machining centres for rotor grinding and machining castings of various sizes. ELGi's own eta-V profile rotors ensure energy-efficient compressed air supply for all demanding applications. ELGi is one of the few companies capable of manufacturing wide range of airends and compressor packages in the world. ELGi's patent portfolio is a testament to the company's continuous research and innovation capability

# AIR UP.

**UPTIME™** comes standard on every EN Series Compressor

### UPTIME Design

This speaks to the engineering and design of our products. Our R&D is dedicated to designing machines that run cooler, cleaner and longer... that are easy to service... with longer service intervals.

### UPTIME Components

For so many of our customers, seeing is believing. They know a quality-built machine when they see it. That's why every part on a ELGi compressor is a quality part. From our proprietary air ends, to our use of leak-free hoses and piping.

### UPTIME Assurance

Here is where we back our pledge, Our industry leading warranties, parts availability and call centers staffed by experts assure peace-of-mind to our customers.

# EN Series

compact, silent and efficient

## Essentials Encapsulated

ELGi's EN series screw compressors are designed to encapsulate all functional components and compressor within a common housing. With its small footprint, high reliability and low maintenance requirements, the compressors are ideal for all industrial applications where size, efficiency and cost matter.

**UPTIME™**  
ASSURANCE

High reliability

Energy-efficient

Low cost of ownership

Ease of maintenance

Compact and silent

## Encapsulated airend\*

The EN series compressors are fitted with ELGi's unique airend which encapsulates all major functional systems such as intake system, compression system and separation system within a common frame

- Energy efficient
- Minimal pressure drop across the system
- Compact
- Silent

\* From EN 2 to EN 30

## Efficient air-oil separation with (<2ppm)

The air-oil separation by impact and deceleration action involves three stages:

**Stage 1:** Impact of air-oil mixture on the tank circumferential area

**Stage 2:** Deceleration action of air-oil mixture to remove the oil particles

**Stage 3:** Air with minor traces of oil enters the spin on separator for purification

## Ease of maintenance

- Single service door access to routine maintenance points
- Spin-on oil filter and separator elements for fast and easy routine service

## Increased reliability

- Designed for wide range of temperatures upto 45°C
- Neuron® controller

The Neuron® has been custom designed and engineered as an efficient control solution for encapsulated series. The system allows you to monitor and control overall performance with easy-to-use service indications, malfunction alarms and safety shutdowns. The controller is built-in with 'service protect' modules. It also includes a service and operational log feature to provide real-time feedback and increase system productivity

## High efficiency motor

- Heavy duty TEFC / S1 / IP55 motor suited for ambient temperature up to 45°C
- Built-in safety systems

## Low cost of ownership

### Design

- Space saving design
- Powered by ELGi's energy-efficient eta-V rotor profiles
- Zero leakage due to integration of components/connections
- Fewer parts and connections require only minimum maintenance

## Operational

### Longer life of consumables

- Efficient air filtration system where air enters through pre-filtered enclosure. Cleaner suction air keeps the internal components of the compressor clean and maintains optimum cooling efficiency
- Low oil-fill

### Robust cooling system in high ambient temperature

- Air cooling in separate hot and cold zones
- High efficiency coolers and cooling fans ensure low operating temperature
- Improved cooling ensures longer life of compressor

After cooler is  
standard in all  
models

- Cold air
- Hot air

### Note:

\* for models upto EN15

Performance data is measured at 7 bar, inlet temperature 45°C, ambient temperature 35°C, pressure dew point +3°C

Due to continuous engineering improvements, technical specifications are subject to change without prior notice

## ELGi Airmate Accessories

### Moisture separator

- Capacity: 100-365 cfm
- Working pressure: 16 bar g

### Downstream filter

- Capacity: 19-1200 cfm
- Working pressure: 7-60 bar
- Filtration range: 1-0.003 microns

### Refrigeration air dryer

- Capacity: 10-2000 cfm
- Working pressure: 7-60 bar
- Filtration range: +3°C. PDP

### Drain valves

(Timer controlled & zero loss)

- Capacity : 50-2000 cfm
- Working pressure: 16 bar
- Media : Condensate

### Dessicant air dryer

- Capacity : 10-45 cfm
- Working pressure : 16 bar g

### Air receiver

- Capacity : 250-10000 ltrs.
- Working pressure : 7-12.5 bar
- Code of construction: ASME sec. VIII Div.I or IS 2825

## Typical compressed air supply system

## Genuine Spares

For enhancing performance and productivity

## Compressed air solutions for all sustainable air needs

**Oil-Free Series Screw**  
90 - 450 kW / 572 - 2450 cfm

**EG Series Rotary Screw**  
11 - 250 kW / 47 - 1612 cfm

**EN Series Rotary Screw**  
2.2 - 75 kW / 8.0 - 469 cfm

**Electric Portable (Trolley)**  
22 - 75 kW / 131 - 490 cfm

**Diesel portable (Trolley)**  
175 - 1100 cfm / 100 - 300 psi

**Diesel Portable (Skid)**  
475 - 1500 cfm / 150 - 400 psi

**Oil-free Recip**  
1.0 - 75 HP / 1.8 - 300 cfm

**Oil-lubricated Recip**  
1.0 - 40 HP / 2.0 - 128 cfm
